AES Paris 2006

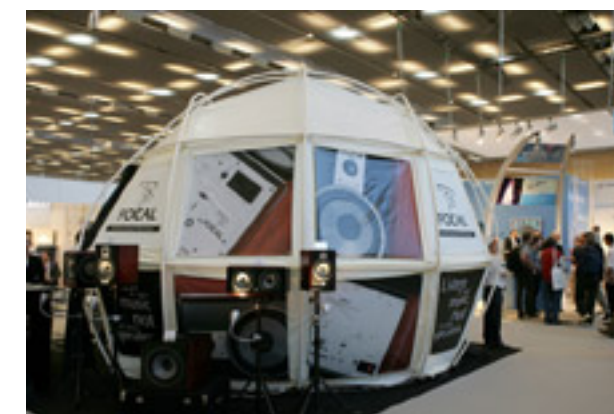

The AES Pro Audio Expo & Convention returns to Paris in 2006 and for the first time, will be held at Paris Expo, the leading French exhibition centre and the 4th biggest complex in Europe.

Over the last 30 years, the AES has always been THE showcase and the birthplace for leading new products. It is a field of exchanges and experimentations between the scientific community and the final users.

Amongst the AES destinations, Paris comes first on the list of favourite venues for international visitors and decision makers. The city is attractive and benefits from an outstanding choice of facilities and services.

Mark your agenda, and organise your participation in the AES Pro Audio Expo & Convention today!
